HOW IT ALL BEGAN

At the ripe age of 19, Barbara from Niagara Falls, NY & Mike Sivells from Hopkinsville, KY began working together at the Radisson Hotel; Mike a bellman and Barbara a waitress. Love flourished and their lives began. Getting established and starting a family were dreams the couple shared, along with Mike’s personal endeavor of one day owning his own BBQ restaurant. Sunday evening drives were the blueprint for their vision, each word that was uttered and each mile that they drove, their dream started to take shape. 17 years of small talk ideas, restaurant names, types of food and the location provided a strong foundation for the couple’s utopia restaurant. Life quickly happened for the once young, dream driven couple, and after juggling 2 children, full time jobs & the hustle and bustle of everyday life, the idea of becoming restaurant owners and putting Mike’s dream in play became less of a reality. Until one day the perfect location with the most ideal components became available just a short mile from their residence. They both knew this 1896 log cabin would provide the ultimate atmosphere for their old fashioned, real pit bbq vision. Mike walked into then Smith’s Florist on a Monday afternoon and walked out a proud owner of a BBQ restaurant. Shack in the Back BBQ opened their doors on September 15th, 2006 and the rest was history...

Dine in an original log home that was built in 1896.
